

# Voluntary One Way Scheme

## THE ROAD SAFETY SCHEME

With your co-operation we are trying to improve the safety of the children and traffic in the vicinity of the school. There is in operation a voluntary one-way system during the time the children are entering and leaving school.

As motorists, it is the responsibility of us all to protect these children who, although given training in the use of pavements and roads, are unpredictable and easily distracted from their purpose.

For years the accident statistics have shown that stationary cars are a great hazard to children. This problem becomes acute at the time of entering and leaving school. Bearing this position in mind, we would like to offer the following suggestions to help lessen the risks for **all** the children attending Pinner Park Schools.

- **DO NOT USE THE CAR TO BRING OR COLLECT THE CHILDREN GOING TO OR COMING FROM THE SCHOOL UNLESS IT IS ESSENTIAL.**
- **DRIVE SLOWLY** in the vicinity of the school.
- **KEEP TO THE CIRCULATORY SCHEME** please remember it is a *school voluntary* one way system - *expect traffic coming towards you.*
- **NEVER STOP IN THE SCHOOL ENTRANCE ZIGZAG MARKINGS**, or near to the school crossing patrol.
- **SET DOWN AND PICK UP CHILDREN ONLY FROM THE ALLOCATED PARKING AREAS.**
- **SET CHILDREN DOWN KERBSIDE** only

**IN BAD WEATHER** you may be anxious to keep your own child dry but remember this is when other **CHILDREN ARE LIKELY TO BE MORE CARELESS** so thoughtful parking is more important.

We are sure you will wish to co-operate in the scheme to improve the safety of the children at Pinner Park.
